PLAY MODE

IN TEAM

## AIM OF THE MISSION

Support participants reflection on their experience abroad

## TIPS AND TRICKS

We can make it more challenging by associating each story with a country.

## DESCRIPTION OF THE ACTIVITY

Ready for recalling the most significant experiences of your mobility? Let's do through key words  
Students and the facilitator collect words related with mobility and then pick one and create a story about this (including the level of difficulties).

**(individually)** Think about three keywords some particular facts that happened to you while abroad. Write them down in three different piece of paper

**(Group)** You and your mates put the three piece of paper in the same box.

**(Group)** One paper is randomly picked up by one of you who starts to tell a short invented story using this word. Then, another person can continue with the same story by picking a new random piece of paper.
