

# BROADCAST YOURSELF

KEY COMPETENCES

ALL

PERIOD

AFTER

PLAY MODE

IN TEAM

## AIM OF THE MISSION

- Increasing awareness about self development reached during mobility, related to all aspects of mobility (house, work, intercultural learning, sharing, language...)
- Create a few videos about transversal competences to show other students the value of those skills. Publish it on social media.

## TIPS AND TRICKS

## DESCRIPTION OF THE ACTIVITY

What do you think is the biggest knowledge you achieve during the Erasmus?  
What changes in your daily life? How does that affect you?  
Think about small things you have learnt, make a video about it, and share it with your friend.

**Discover what Key competence are here:**

<https://op.europa.eu/en/publication-detail/-/publication/297a33c8-a1f3-11e9-9d01-01aa75ed71a1/language-en>

**Choose 2 transversal skills you would like to talk about**

because you can feel a difference between what you were before the mobility, and your actual you (during or after the mobility)

**Create a scenario and make a short video related to the skills you choose.** If it is easy for you, you can create a double scenario: the one before the mobility, and the one after the mobility.

**Publish it on social media** and share with your friends.

Remember to use the hashtag (#Erasmus #VetLearnerJourney #SocialCompetence #InterculturalLearning #Nameofyourschool)

## ADDITIONAL DETAILS

It would be good that the structure of the activities should be done in a meeting after the mobility, and with a trainer who:

- Create a reflection moment in which student think about the growth of their competences before and after the mobility
- Help them in the creation of scenario
- In a group, after the creation of the scenario, there is a general brainstorming to close the activity.
