AIM OF THE MISSION

Avoid anxiety linked to mobility abroad.
Motivate learners by giving them responsibilities in their preparation for mobility.
Secure basic knowledge of foreign language.

TIPS AND TRICKS

Verify with your teacher / tutor if you took the fastest itinerary. You could also check for a second itinerary in case you can't take the first one for any reason.

DESCRIPTION OF THE ACTIVITY

Ready for the travel? Have you checked everything: language, documents, boarding pass? but, what does it really happens when you put your first step abroad? Imagine and solve the following situations you will find on the way.

Download a web mapping application on your mobile phone (e.g. moovit, maps, etc.) and calculate your itinerary with public transport from the airport to your accommodation (be sure to put your arrival date and approximate arrival time). Upload a picture screenshot of your itinerary.

How much is the ticket for your itinerary? Check your app's itinerary details, check the airport website, etc.

You are on public transport on your way to the accommodation. Ask the driver to indicate you the right stop to get to your accommodation? Write in English and then try to find how to say it in the local language.
