AIM OF THE MISSION

Learn how to solve problems, fears and discover places or elements of host country.

TIPS AND TRICKS

What will you remember from this game?

DESCRIPTION OF THE ACTIVITY

Welcome to your Erasmus+ adventure!

You're going to face a lot of problems... Will you be able to fight against your fears? Will you finish your internship with all the money? Let's play together!

Fill boxes with fears, expectations and local activities (pro or cons) using monopoly board game.

Give the amount of pocket money that students are going to use during the internship to each player. You'll find three types of situations: Some can be solved by paying money, some by receiving money and others you will need to be creative.

Who wins? The person who best manages the money. Keep in mind they also can borrow money and some boxes can be solved with activities. Tell us if you won!
