AIM OF THE MISSION

The goal of the mission is to work on idioms using digital tools, such as the "Tik Tok" app.

TIPS AND TRICKS

Share the videos to the group and discuss about the experience.

DESCRIPTION OF THE ACTIVITY

Sometimes, people will try to explain to you some typical local expressions but they can be hard to understand... One good way of explaining them would be by illustrating them in a theatrical way. Let's find such expressions, act in short plays them and film ourselves!

[The supervisor presents examples of a "Tik tok" video with two main sequences : the expression illustrated by acting, and a visual of the saying, written on the board and said out loud] **What was the saying?**

Find some local expressions and decide on which one you want to work. Then create a short scenario that illustrates in a simple way the expression. Tell us the expression you chose.

Film yourself with the Tik Tok app. Send us the link.
